# 3DEXPERIENCE **DRAFTSIGHT PREMIUM OFFER**

CONNECT YOUR TEAMS, DATA, AND PROCESSES ALL IN ONE PLACE IN THE CLOUD

3DEXPERIENCE® DraftSight® Premium connects the powerful DraftSight CAD solution for 2D and 3D DWG files to the **3D**EXPERIENCE platform, a cloud-based product development environment. Experience robust collaboration and intuitive data and product lifecycle management all in the cloud, as well as support from your local reseller.

With all data saved securely on the **3D**EXPERIENCE platform, your design and engineering teams can access, share, and manage your drawings at any time, from anywhere, and on any device. Collaborate in real time across disciplines, departments, and your entire business ecosystem, including customers, partners, and suppliers. Add roles that work together seamlessly, and have a consistent user experience so you can design, simulate, and manufacture your products in one place, on the platform. Simplify license management with the ability to monitor usage, manage users, and assign and remove licenses from a single administrative dashboard.

THE 3DEXPERIENCE DRAFTSIGHT PREMIUM OFFER INCLUDES THESE ROLES:

- **3D**EXPERIENCE DraftSight Premium: the intuitive, robust DraftSight Premium solution connected to the **3D**EXPERIENCE platform providing comprehensive support for 2D and 3D DWG files to enable prototyping, manufacturing, laser cutting, 3D printing, and more.

- Collaborative Industry Innovator: browser-based role on the **3D**EXPERIENCE platform for product lifecycle management featuring issue, change and route management, 3D visualization and markup of DWG files, Kanban-style task management, and more.

- Collaborative Business Innovator: browser-based role on the **3D**EXPERIENCE platform for centralized team collaboration offering secure data storage and sharing, tailored dashboards, social communities, and more.

KEY CAPABILITIES

Powerful: Robust 2D drafting environment for your manufacturing and construction communication needs
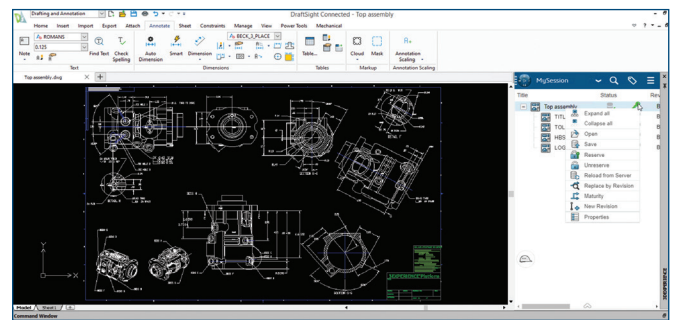

- Create, edit, view, mark up, share, and print 2D drawings and 3D solids and meshes in DWG file format.

- Reuse rich libraries of drawing and block resources and productivity tools to speed up drawing delivery.

- Migrate easily from 2D CAD tools with a familiar interface and support for DWG data and automations.

Organized: Secure data and product lifecycle management on a cloud-based platform

- Store all your drawings in a centralized, secure location and manage them from any device without any installation.

- Manage the lifecycle of DWG and DXF™ files, simulation models, and documentation across disciplines and CAD applications.

- Track issues, changes and routes, and reduce conflicting edits with revision control.

Collaborative: Multidiscipline collaboration across your entire business ecosystem

- Locate relevant drawings quickly by keywords, file formats, attributes, and tags.

- Preview drawings. Zoom, pan, and mark up drawings with multi-touch gestures directly in the browser.

- Create dashboards for personalized views into information from all sources and set alerts for data feeds.

- Share unstructured and structured content through activity streams, chat, video, and user-tagged comments.

Our **3D**EXPERIENCE® platform powers our brand applications, serving 11 industries, and provides a rich portfolio of industry solution experiences.

Dassault Systèmes, the **3D**EXPERIENCE Company, is a catalyst for human progress. We provide business and people with collaborative virtual environments to imagine sustainable innovations. By creating 'virtual experience twins' of the real world with our **3D**EXPERIENCE platform and applications, our customers push the boundaries of innovation, learning and production.

Dassault Systèmes' 20,000 employees are bringing value to more than 270,000 customers of all sizes, in all industries, in more than 140 countries. For more information, visit **www.3ds.com**.
