

# 5 FAST FACTS ON DraftSight BIM

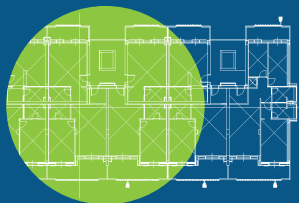

## 01 CONVERT RVT & IFC TO DWG

Now complex BIM models can be transformed into highly detailed and accurate 2D drawings with unmatched efficiency.

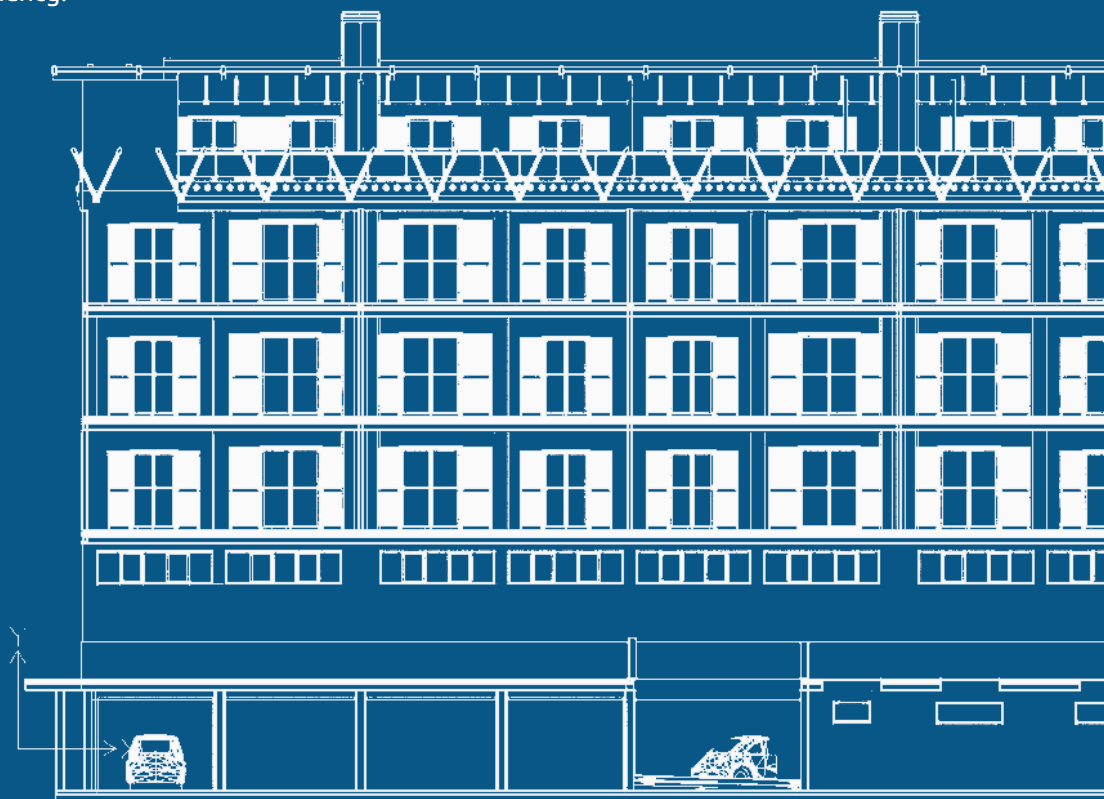

## 02 GENERATE PLANS, SECTIONS, & ELEVATIONS

Build your sheet sets faster, with greater precision and up to date information.

## 03 AUTOMATICALLY ASSIGN HATCHES TO MATERIALS

Enhance visual clarity and maintain consistency across all drawings with the ability to seamlessly apply hatch patterns to BIM materials.

## 04 ANNOTATE & DIMENSION DRAWINGS EASILY

Leverage DraftSight's full suite of tools to achieve professional drawings in no time.

## 05 EXTRACT & DISPLAY BUILDING INFORMATION USING TABLES

Effortlessly show all relevant BIM data through various formatting directly in drawings.
